RE: Hazardous Waste Compliance Inspection – April 7 and 8, 2009; Ringside MFG, 14865 West 105<sup>th</sup> Street, Johnson County, Lenexa, EPA Identification Number: KSR 000 014 910

Dear Mr. Travis:

On May 8, 2009, I received your letter documenting the actions taken to correct the violations cited on the Notice of Non-Compliance (NON-C) issued at the close of the referenced hazardous waste compliance inspection. Based on the information in your letter, violations 1 and 3 cited as a result of the inspection are considered corrected. Violations 2 and 4 remain outstanding. To correct these violations, the following actions must be taken and applicable documentation provided to the department no later than June 15, 2009.

**Violation 2 – K.A.R. 28-31-4(k) – Failure to document weekly inspection of containers of hazardous waste** – In addition to the information submitted in your letter, documentation of weekly inspections conducted on the containers of waste in storage at your facility must include: 1) whether or not the containers were marked with the accumulation start date as required, 2) the complete date (month, day, and year) the inspection was performed, and 3) the first and last name of the individual performing the inspection. To correct this violation, you must provide written documentation to this department of the actions taken to properly document the weekly inspections conducted subsequent to receipt of this letter.

**Violation 4 – K.A.R. 28-31-4(h)(7) – Failure to post emergency information next to at least one telephone accessible, with little or no delay, in an emergency** – To correct this violation, you must provide written documentation to this department describing the specific location(s) the emergency information was posted.

Your cooperation with the waste management program is appreciated. If you have any questions regarding the inspection or the above information, please call me at 620/431-2390.

Sincerely,

Victoria S. O'Brien, CHMM
